Massachusetts General Hospital
Fellowship in Public and Community Psychiatry

Fellowship Director: Oliver Freudenreich, MD
Division of Public and Community Psychiatry Director: Derri Shtasel, MD, MPH

Duration of training: 1 year (July 1-June 30)
Application deadline: open until position is filled

- Linking academic medicine with community care, this NEW Fellowship in Public and Community Psychiatry, sponsored by the Department of Mental Health (DMH), will provide advanced training at the PGY-5 level for psychiatrists who want to pursue a career in public sector psychiatry.

- The Fellowship combines direct evidence-based clinical care with emphasis on longitudinal treatment, mentorship, peer learning, scholarly work and immersive leadership training to prepare the fellow to become leaders in this area.

- Consistent with the mission of DMH, the fellowship is sited in a community mental health center (the Erich Lindemann Mental Health Center) whose emphasis is rehabilitation and recovery. The Lindemann houses an outpatient clinic; the MGH Schizophrenia Program; and a state shelter.

- The fellowship curriculum consists of: (1) three longitudinal clinical rotations at the Erich Lindemann Mental Health Center; (2) a psychiatric consultation experience at a DMH state facility; (3) an educational immersion experiences in administrative psychiatry; (4) formal didactics in public policy and leadership; and (5) a scholarly project.

- The Fellowship is part of the MGH Division of Public and Community Psychiatry (http://mghmcleanpsychiatry.partners.org/program/public-and-community-psychiatry/)

- The current MGH salary for PGY-5-level trainees is about $69,685.

- No nights or weekends “on call” are required. Moonlighting is available at the hospital.

If interested, please contact Oliver Freudenreich, MD, Director, MGH Fellowship in Public and Community Psychiatry via e-mail (ofreudenreich@partners.org).
